### Profile

Hello, my name is Taylor Cabral, and I'm a Graphic Illustrator. My specialty is taking hand-crafted assets and transferring them over to the computer to be used for animation, brand designs, etc. A complete listing of my technical skills can be viewed under my qualifications.

Not all graphic designers can do illustrations and not all illustrators can make their works usable for design. If you need someone for more art-based designs or just to check out more of my work visit taylorcabral.com, and leave a message there I should get back to you in 24 hours.
